

# Zhaga Consortium

Member Listing

Zhaga is a global consortium of companies from the international lighting industry. Members are luminaire manufacturers, LED module makers, material and lighting component suppliers as well as service providers like laboratories. Zhaga is dedicated to making LED light engines interchangeable through standardized LED module interfaces. Since its establishment in February 2010, Zhaga has grown rapidly and today has over 180 members. The following contains a listing of our current members. The companies with booth numbers have indicated to Zhaga that they plan to display Zhaga compliant products.
